MEMORANDUM FOR: Executive Director, NPIC

THROUGH: Assistant for Operations, NPIC

SUBJECT: Preparation of Photo Mosaic Indexes

1. NPIC has in work a project to assemble AMS mosaic plots of KH-4 photography on WAC charts to aid the photo interpreters in locating photography. To get this project underway it has been placed under the chairmanship of [redacted] who, assisted by 14 personnel from various divisions of NPIC, will work through the backlog of missions on hand. TID, as requested, is furnishing four people to assist in this work.

50X1

2. As an initial effort to get the project underway, TID does not object to the present arrangement and is more than willing to lend any assistance it can. However, if this type of photo indexing is to become a regular production item of NPIC, it is the opinion of TID that the mosaic-WAC correlation and assembly work (preparing the mosaics for Minicard incorporation) belongs in TID. As stated in the Missions and Functions of TID: the TID shall prepare detailed, comprehensive and special plots for photographic materials received by NPIC.

3. Therefore, it is requested that at the time the preparation of this material becomes a regular NPIC production item, the portion of the work involving the correlation and assembly of the AMS photo indexes and WAC charts for Minicard reproduction, become the responsibility of the Technical Intelligence Division.
